

DRIVE SHOT

THE DRIVE

The drive is used as a defensive or an attacking shot. It should be used when the advantages are against the bowler driving or his team.

PURPOSE

- To trail the jack to the ditch or
- To remove a bowl or bowls from the head or
- To open the head for further play or
- To kill an end

METHOD

The bowls is delivered towards an aiming point between the lines 8 and 7.

The precise angle is governed by the pace of the green, the climatic conditions, the ability of the bowler and the particular delivery style used.
